EXPERIENCE

- Year 2 at SETEC Institute | 2024 - 2025

- **Year 2 – Final Project EXAM:** Collaborated with a team to build an advanced e-commerce website, integrating APIs for product management and user authentication. Contributed to creating an interactive and responsive UI/UX, providing a smooth shopping experience. This project enhanced my teamwork, collaboration, and practical web development skills.

- **Year 2 – Midterm Project EXAM : Coffee Shop Management System** – Developed a responsive coffee shop management system using **Spring Boot (REST API), Angular, Tailwind CSS, TypeScript**, and **ORACLE**. Implemented menu management, order processing, and REST API integration, strengthening my full-stack development skills.

- **Year 3 – FINAL Project EXAM :**

Phone Shop Management System – Independently developed a full-stack phone shop management system using **Spring Boot (REST API), Angular, JWT Authentication**, and **PostgreSQL**. Designed and implemented features such as user authentication, product management, inventory management, shopping cart, order processing, and secure role-based access control. Integrated the Angular frontend with Spring Boot REST APIs and PostgreSQL database. This project strengthened my skills in full-stack development, RESTful API design, database management, authentication, and modern web application architecture.
